

ADDENDUM NO. 2

Date: April 28, 2015

Invitation to Bid (ITB) 15-0020

**PHASE II CONSTRUCTION OF GROUNDWATER REMEDIAL SYSTEM
AT ASTATULA REFUELING FACILITY**

It is the vendor's responsibility to ensure their receipt of all addenda, and to clearly acknowledge all addenda within their initial bid response. Acknowledgement may be confirmed either by inclusion of a signed copy of this addendum with the initial bid response, or by completion and return of the addendum acknowledgement section of the solicitation. Failure to acknowledge each addendum may prevent the bid from being considered for award.

This addendum DOES NOT change the date for receipt of bids or proposals.

The purpose of this addendum is to provide confirming information. **The current due date remains in effect unless specifically changed via formal addenda.**

The following items are confirmed:

1. The prime (awarded vendor) shall hold a general contractors license along with being licensed to do business in the State of Florida.
2. The prime is the responsible entity and by signing invoices is liable for any fraudulent work invoiced. Also, the prime shall submit all pay requests to the County not sub-contractors.
3. For line items 9 and 10 bidders shall quote a 6 month lease price and a price for a 3 month extension beyond that, if needed. It is confirmed that once the oxidizer is on our job site, payment for the first six months can be paid.
4. Question - Is retainage being held on the project through the end of the 9 month period?
Answer - When final completion is signed off by the County, payment will be released. After final completion, there is a 1 year warranty period. The only remaining pay item is if the project required the extra 3 months lease extension for the thermal oxidizer.
